DETAILED ACTION

Election/Restrictions

This application is in condition for allowance except for the presence of claims 1-6, 8-33 and 36-45 drawn to Species non-elected **without** traverse. Accordingly, claims 1-6, 8-33 and 36-45 have been cancelled.

Abstract

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed **150 words** in length since the space provided for the abstract on the computer tape used by the printer is limited. As such, the abstract has been amended to be less than 150 words. Only nonessential matter has been deleted.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Art Unit: 2872

The application has been amended as follows:

Claims 1-6, 8-33 and 36-45 have been canceled.

The abstract has been amended as follows:

ABSTRACT OF THE DISCLOSURE

An optical element with variable optical properties, which ensures that the amount of light available is increased, and an optical device using the same. In a liquid crystal variable hologram element 3, polymer layers 18 and liquid crystal layers 19 are alternately arranged between transparent substrates 16 and 17, with liquid crystal particles 20 lining up in each liquid crystal layer 19. When voltages are applied on transparent electrodes 21 and 22, the refractive index of the polymer layers 18 is substantially equal to that of the liquid crystal layers 19, resulting in no development of hologram. When the voltages are held off, the refractive index of the polymer layers 18 is different from that of the liquid crystal layers 19. This repetition gives rise to an Interference fringe action. Thus, the variable hologram element 3 can function as a hologram reflecting mirror.

Reasons for Allowance

Claims 7, 34 and 46-54 are allowable in view of the Amendment to the claims filed 5/10/2004 and in view of Applicant's remarks on page 8 (see last paragraph).

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
